A
New
Kind of
Leader

When you volunteer, you're telling kids that they matter.

You're telling kids and students that they're worth showing up for. That they have something to offer this world. And in case you didn't know, you do too.

You have something to offer the world. So become a new kind of leader and make it personal. Make it personal for kids. Make it personal for students. Make it personal for their families. And make it personal for yourself.

Why? Because when you help to lead the new generation towards a more authentic faith in Jesus, your faith will grow and become more authentic in the process.

Do like Jesus. And become a new kind of leader.
